## SMART BORROWING PLANNER

### More Smart Borrowing Planner Options from Chase

The options you see below are based on consolidating your current borrowing to a Chase product. By consolidation you current borrowing, you may reduce your interest rate or monthly payment even further and save even more money. If you more than one option, please choose the one that works best for you.

Smart Borrowing option(s) for your overall credit balances – credit not secured against any personal assets, such as your home or car:

Consolidate \$3,257 of your outstanding personal credit balance to a Chase Personal Loan and save.

Amount of outstanding balances to consolidate	\$3,257
Average current interest rate you are paying on these balances*	14.38%
Interest rate that you would pay if you transferred balances to Chase Personal Loan	11.49%
Potential monthly payment savings**	\$26

\*Your current interest rate is calculated as a weighted average based on the rates and balances you provided. Should you decide to transfer your balances to Chase, We recommend that you transfer your higher interest rate accounts.

\*\*The potential monthly savings are calculated by subtracting the estimated required minimum monthly payment with Chase from your current required minimum monthly payment.
